ILVER 39 SPADA.

DESCRIPTION

A unique and rare vessel in its class, featuring 280 hp engines—the last ones installed by Ilver on this model.

This Ilver Spada 39 is the last unit built in 2007 by the Ilver shipyard before it ceased operations. It is, in fact, the only Spada 39 equipped with Volvo Penta D6 engines of 280 horsepower. This boat has been meticulously maintained, and in recent years, high-end accessories such as a generator and air conditioning have been added.
